

Project Information Sheet

East Sussex National

**Location**

*East Sussex National, Uckfeild
West Sussex*

Case Study

The two world renowned championship golf courses at East Sussex National are now complemented by a new Hotel complex to create a resort facility. This 4 star Hotel has 104 bedrooms, 14 luxury suites plus health club and Spa. East Sussex National now has two new restaurants of 60 and 160 covers which cater for Hotel guests plus conference suites and a banquet hall.

In line with the design of the Hotel, East Sussex National required buffet equipment which would provide a contemporary feature in each of the new restaurants. Additionally they required the units to be mobile to provide flexibility for the entire food and beverage operation.

The two King's Buffets 'Design State' 3600mm long buffet tables provide a stunning cantilevered display. Each unit is identical with hot contact and cold contact sections which are independently temperature controlled each providing approximately 1250mm x 800mm display space.

"As soon as we saw the King's Buffets product we knew it was exactly what we had been looking for. The continuous granite top of the King's Buffets Design State units makes them extremely easy to clean and maintain, whilst providing an attractive display for our hot and cold buffet" comments Drayon Kholi, Hotel Manager.
