 London, E1 6JX*

*Basement: Back of house area  
 including kitchens and private dining  
 room with kitchen views.*

*Ground Floor: Main restaurant seating  
 up to 110.*

**Case Study**

One of London's best kept dining secrets 'Les Trois Garçons' located minutes from Liverpool Street in the heart of the City, has recently undergone a major refurbishment of the basement kitchen.

Key to the refurbishment was the inclusion of an Athador bespoke cooking suite specifically designed for the restaurant. The head chef wanted to incorporate a central island cooking suite within the kitchen as the existing modular wall configuration was inefficient and caused major problems during service.

Working closely with the kitchen team Athador have created a compact 1160mm wide x 2850mm long suite giving double sided work access. The suite comprises, 2x double 'Plaque Athanor' Plancha, 1x 900mm gas solid top, 2x radiant hob and 2x 1/1Gn gas ovens.

The configuration of the suite now gives in essence 3x large solid tops and 2x open burners for mise-en-place and then in service 4x precise temperature cooking zones, 1x solid top and 2x warming areas. Ideally suited to this style of restaurant where flexibility of product is essential.
